Forget the hassle of legacy videoconferencing systems and focus on the essentials

VideoTouch Compact makes videoconferencing from a meeting room easier
while maintaining a high level of quality and confidentiality.

Manage your videoconferencing with fingertips with incredible ease

Get rid of technical issues and forget the tedious handling of remote controls, complicated network configurations and interoperability issues.

For a small group or a videoconference involving many participants, the VideoTouch Compact simplifies your life and allows you to communicate confidentially from your meeting room.

VideoTouch compact

Simpler

✓ **Ergonomic touch console**
Enlarge videos, moderate participants or share a computer screen.

✓ **Clear and intuitive interface**
Get back to the graphic universe of Tixeo solutions for smartphones and workstations.

✓ **Easy installation**
No dedicated line, no complex firewall settings.

✓ **Smart multiscreen display**
Participants' videos and shares are automatically distributed and maximized on 1 or 2 screens in 1080p HD quality.

More efficient

✓ **HD Video**
Latest-generation PTZ camera with Carl Zeiss optics.

✓ **Crystal clear sound**
Microphone/loudspeaker system integrated in the console delivering pure, intelligible sound without echo or reverberation.

✓ **Power and smoothness**
VideoTouch Compact features 7th generation Intel® Core i5 processor.

Safer

✓ **Encryption**
End-to-end encrypted audio/video communication in a multipoint meeting.
Encrypted communication link between client and server.

✓ **No ports to open**
No impact on network security policy.

✓ **Compartmenting meeting**
Impermeability of data from one meeting to another.

✓ **ANSSI Certification/Qualification**

The French technology Tixeo has obtained a CSPN certification and a qualification from ANSSI (National Cybersecurity Agency of France)

Effective collaboration

Connect any equipment to the VideoTouch Compact to instantly view your working documents.

VideoTouch Compact makes your collaborative processes easier: plug in your computer or tablet (HDMI). A simple tap on the screen activates the sharing, and the content is displayed on the participants' screens.

The integrity and confidentiality of your documents are perfectly guaranteed: the VideoTouch Compact does not have access to your data, it only displays them.

The Tixeo universality

VideoTouch Compact remains an open videoconferencing system: the TixeoGateway option provides perfect interoperability to communicate with legacy videoconferencing systems such as SIP or H.323 without any of their inconvenience.

High resolution touch panel & HD video camera

VideoTouch Compact revolutionizes the organization of your videoconferences from a meeting room. Its format and high definition touchscreen offer a simplified handling: in a few seconds you invite your participants and start the meeting without worrying about technical issues related to its use. Bring your meetings to life with the motorized HD camera.
